WELCOME MESSAGES

Prof. Sulayman Alshatir
President, Sirte University

WELCOME MESSAGE FROM UNIVERSITY THE PRESIDENT

We proudly present the English edition of the Sirte University Guide, a significant stride in our ongoing commitment to broaden our international reach and provide accessible information to our global academic community, including partners and future students.

Sirte University is dedicated to academic excellence, groundbreaking research, and strong community engagement. As we grow and evolve, establishing international communication and collaboration is crucial. This English guide reflects our dedication to fostering understanding, building partnerships, and welcoming students from diverse backgrounds to our academic endeavors.

This guide serves as a vital resource, detailing our academic framework, programs, support services, and achievements. It highlights the hard work of our faculty and staff and our shared vision for Sirte University as a leading institution nationally and internationally.

Prof. Eltayeb Elgobbi
Vice President for Academic Affairs
Sirte University

WELCOME MESSAGE FROM UNIVERSITY THE VICE PRESIDENT

It is with great pleasure that I welcome you to Sirte University through this comprehensive guide, which has been prepared to introduce our esteemed institution, its academic programs, services, and vision for the future.

Sirte University stands as a beacon of knowledge and development in Libya, dedicated to academic excellence, scientific research, and community service. Our central location in the heart of the country reflects our mission to connect diverse regions and minds in pursuit of learning, innovation, and national progress.

This guide is designed to serve as a valuable resource for students, teaching staff members, and visitors alike. It offers detailed information about our faculties, departments, academic centers, and the opportunities available across our academic and research landscape.

As Vice President for Academic Affairs, I take pride in the dedication of our teaching staff, the enthusiasm of our students, and the growing impact of our research. I invite you to explore the contents of this guide and discover all that Sirte University has to offer.

We look forward to your contributions, your curiosity, and your commitment to academic and personal growth.

UNIVERSITY OVERVIEW

Sirte University was established according to the decision of the Secretary of the General People's Committee for Higher Education No. ninety for the year one thousand nine hundred and eighty-nine as a branch of Garyounis University, which is currently known as Benghazi University. Then, Sirte University became administratively and financially independent under the name of "Al-Tahadi University" according to the decision of the General People's Committee No. seven hundred and forty-five for the year one thousand nine hundred and ninety-one. Eventually, the name of the university was changed from (Al-Tadadi University) to (Sirte University) according to the decision of the General People's Committee No. one hundred and forty-nine for the year two thousand and ten.

04

HISTORY OF SIRTE

Sirte, also known as Surt, is a coastal city situated along the Gulf of Sirte on Libya's Mediterranean shoreline. With a current population of approximately 126,000, it is one of the country's major urban centers. Strategically located in central Libya, Sirte serves as a key link between the eastern and western regions and lies near important oil fields and export ports.

In addition, the city holds considerable historical and strategic value in the region. Rich in cultural heritage, Sirte has been continuously inhabited for centuries. Beyond its historical significance, Sirte is renowned for its beautiful white sand beaches and clear Mediterranean waters, making it a popular destination for outdoor activities.

VISION, MISSION, AND OBJECTIVES

Vision

A leading institution in education, scientific research, and innovation, aligned with international standards and committed to serving the community.

Mission

The university aims to localize knowledge and deliver innovative scientific research according to international standards, with a focus on developing human competencies and serving the community through a comprehensive educational environment and local and international partnerships.
